

MARIUS AURENTI

FLOOR CLEANER CONCENTRATE

Cleans and degreases all washable floor coverings

PRESENTATION

Concentrated cleaning product. Marius Aurenti Floor Cleaner Concentrate is neutral, acid-free, ammonia-free, and alkali-free. It leaves surfaces clean and grease-free. It is suitable for all washable floor coverings such as microcement, resin floors, tiles, painted surfaces, plastics, PVC, and linoleum.

INSTRUCTIONS FOR USE

For routine maintenance, dilute 20 ml of Marius Aurenti Floor Cleaner Concentrate in 8 liters of water. Clean floors using a mop or broom.

For floor scrubbing, dilute 50 ml of Marius Aurenti Floor Cleaner Concentrate in 8 liters of water. Divide large areas into 2- to 2.5-meter sections. Spray the mixture, scrub with the floor scrubber, then buff.

TECHNICAL SPECIFICATIONS

Maintenance: 20 ml

Washing: 50 ml

Appearance: liquid

Density at 20°C: 1.03

Biodegradable: over 95%

pH value: neutral

Prevent dirt!

For example, a floor mat will limit stains, especially on the ground floor. Proper maintenance of concrete requires a multi-step cleaning process.

1. For your microcement interiors with varnish

- Vacuum the dust with a vacuum cleaner equipped with brushes.
- Clean with Marius Aurenti Floor Cleaner Concentrate and water. Be sure to follow the recommended dosage; these are highly effective professional products.
- Don't hesitate to mop the floor. For larger areas, a floor scrubber or single-disc machine with a suitable pad can be used.
- Renew the wash water (hot or warm water).
- Do not expose the coating to water or steam temperatures exceeding 80°C.
- Rinsing with water helps to remove cleaning product deposits that can eventually soil the floor.
- Clean white limescale stains with Marius Aurenti Anti-Limescale Cleaner Concentrate and rinse with water.
- Clean the greasiest areas (worktop, kitchen floor, etc.) with Marius Aurenti Multi-Purpose Degreasing Cleaner Concentrate diluted from 1 to 2% and rinse with water.
- Clean stubborn surface marks, such as black shoe marks, with a scouring sponge (red) or a sponge specifically designed for enamel or ceramic hobs. Green sponges can scratch varnished surfaces.
- Do not add black soap, linseed oil or other nourishing products to the surfaces to avoid soiling.

2. For your waxed interiors

- Use the same cleaning method as for your varnished microcement interiors. However, we recommend renewing the wax after
- Cleaning involves applying a coat of spray wax and spreading it with an applicator brush or painting mitt. This can also be done with a polisher or a single-disc machine with a suitable pad.

MARIUS AURENTI

For 40 years, Marius Aurenti has been innovating to improve the performance of decorative materials and the sensations they provide.

A mineral and plant aesthetic, close to Nature, to which our works pay homage and for which our environmental commitment is total.

MA's is also present, through its training and support, alongside quality French craftsmanship which, every day in our workshops as well as in the field, strives to make each place unique, beautiful and timeless.
