

MARIUS AURENTI

BFHP RELEASE AGENT

Finishes

APPLICATIONS

Product designed to facilitate the release of poured Smart'up Design fiber-reinforced concrete (BFHP).

COMPOSITION

Water-based lubricant suspension

PROPERTIES

This odorless and non-toxic release agent is specifically designed to minimize air bubbles, staining, chalking, and adhesion. It provides the demolded concrete with a light, uniform color. It is environmentally friendly, easy to use, and can be rinsed off with water.

PACKAGING

1 L

As it consists of two phases (oil and water), the release agent must be thoroughly mixed before use.

APPLICATION TOOLS

A clean, dry, lint-free cloth, a pressure sprayer (minimum 1 bar), or an airless spray gun.

APPLICATION CONDITIONS

Compatible with various mold types (polyurethane, treated wood, metal, composite). We recommend carrying out a preliminary test on the selected mold.

APPLICATION METHOD

For small surfaces, apply by hand using a clean, dry, lint-free cloth. Spread the release agent evenly inside the mold and wipe off any excess.
For larger surfaces, use a pressure sprayer (minimum 1 bar) or an airless spray gun with a very low flow rate.

COVERAGE

30–60 m²/L

TOOL CLEANING

Clean the tools with water after use.

PRODUCT APPEARANCE

Opaque white liquid

DENSITY A + B (AT 20°C):

0.9 g/cm³

STORAGE AND SAFETY

1 year in its original unopened packaging, protected from sunlight and frost, at a temperature between +5°C and +30°C.

Use promptly after opening to prevent the development of bacteria or fungi in the suspension.

For additional details concerning safety, please consult the Safety Data Sheet.
